Spiral-hose:	diameter 1/2", 130 cm
Wheel-diameter:	260/85 mm, Pressure max 1,7 bar
Weight:	12 kg
Producer:	AQUA TIM, d.o.o., Vrbje, Slovenia

Why KANGLoo-Watering-Can?

- + Because it is simply ideal for watering plants in greenhouses, gardens, on balconies or terraces and on higher windowsills;
- + Because the Kangloo watering-can with the integrated pressure pump is very convenient - when releasing the pressure optimum watering is insured;
- + Because it is stable and mobile - on large wheels with low gravity centre;
- + Because the housing of Kangloo watering-can is also a water tank with 50 litres capacity;
- + Because it is easy to use it and easy to fill it - but at the same time it has an elegant and modern shape;
- + Because it is available in more colours and thus more attractive.
